

Edina Trust Science Grant Scheme Nursery Report Form

3. The science resources we have in school restrict the number of pupils that can actively take part in practical science. This means that science is often 'demonstrated' by teachers rather than carried out by pupils

4. The opportunities and experiences we currently offer for science visits/ science visitors are limited

5. Our current science resources do not enthuse and encourage our pupils to have an interest in science

6. Please describe how the grant has impacted on (i) the science learning outcomes for your pupils, and (ii) your teaching practice.

7. Please describe a part of your project which was really successful and fully met or surpassed your expectations, as well as any disappointments we can learn from.

8. Please provide any comments/suggestions or ideas regarding the operation of the Scheme.

Edina Trust Science Grant Scheme Nursery Report Form

Edina Science Grant Marketing

Edina publicises its grant scheme to schools via www.edinatrust.org.uk, twitter.com/EdinaTrust, and various printed materials. **We are particularly grateful for any photographs**, with or without further supporting information or materials. Please send photographs to reporting@edinatrust.org.uk and state below whether you give Edina permission to use these.

	Yes or No
Can Edina use your photographs for marketing on its website, Twitter, and/or in its printed materials? (<i>Where permission is expressly given photographs will be used for no more than six years, after which time they will be deleted</i>).	
Can Edina use the written material provided (anonymously) on its website, Twitter, and/or in its newsletters?	

Reporting to the Local Authority

At the end of its three-year grant scheme, Edina prepares a report to the Local Authority to describe the impact of its funding on the teaching and learning of science in schools. It uses evidence gathered from schools' reports to demonstrate its impact, as in the example below:

Primary School received all three grants, and a nursery grant, and described the impact of Edina's funding as transformative: *"Before the Edina Grants, I audited the Science resources. Many had not been used for a long time, and were out of date or unusable. After the Edina grants, we now have an extensive Science resources cupboard, and whole class experiments are happening regularly around school. Science now has the 'wow' factor again in my school."*

School name redacted for privacy reasons.

	Yes or No
Can Edina share your comments with the Local Authority in its report on the impact of its three-year Science Grant Scheme?	

Thank you for your help
