3. The science resources we have in school restrict the number of pupils that can actively take part in practical science. This means that science is often 'demonstrated' by teachers rather than carried out by pupils

Edina Science Grant Marketing

Edina publicises its grant scheme to schools via www.edinatrust.org.uk, twitter.com/EdinaTrust, and various printed materials. **We are particularly grateful for any photographs**, with or without further supporting information or materials. Please send photographs to reporting@edinatrust.org.uk and state below whether you give Edina permission to use these.

	Yes or No
Can Edina use your photographs for marketing on its website, Twitter, and/or in its printed materials? (<i>Where permission is expressly given photographs will be used for no more than six years, after which time they will be deleted</i>).	
Can Edina use the written material provided (anonymously) on its website, Twitter, and/or in its newsletters?	

Reporting to the Local Authority

At the end of its grant scheme, Edina prepares a report to the Local Authority to describe the impact of its funding on the teaching and learning of science in schools. It uses evidence gathered from schools' reports to demonstrate its impact, as in the example below:

Primary School received all three grants, and a nursery grant, and described the impact of Edina's funding as transformative: *"Before the Edina Grants, I audited the Science resources. Many had not been used for a long time, and were out of date or unusable. After the Edina grants, we now have an extensive Science resources cupboard, and whole class experiments are happening regularly around school. Science now has the 'wow' factor again in my school."*

School name redacted for privacy reasons.
